

## **For God and Country** "The Conception of America"

History did not happen in a vacuum. For this reason we will, of necessity, spend a few moments giving some context to the times and circumstances that led to the birth of the United States of America.

If you would, please take a trip with me back in time over 2,000 years. Jesus Christ has completed His earth-walk, He's risen from the dead, ascended into heaven, the Holy Spirit, the "promise of the Father" has come and the church has been empowered.

Great success was the hallmark of Christianity following the coming of the Holy Spirit at Pentecost. They were now empowered to withstand opposition and persecution, and even martyrdom! These "who turned the world upside down" simply could not be stopped. That is until sin and corruption was allowed, from within and from without.

### **Timeline**

about 310 AD - Christianity began to be the favored religion throughout the Roman Empire, eventually being accepted as the "official" state church by edict in 380.

Although historic revision is producing textbooks for our children, which minimize or eliminate the mention of God and Christianity, the fact remains that according to historical documents and records, faith played a major role in the formation and development of our beloved United States. This we will trace for the next 4 weeks each Sunday morning.
